

Eastern Ontario Local Food Conference Conférence sur l'alimentation locale dans l'Est de l'Ontario 2019

2019 Conference Sponsorship Opportunities

November 13-14, 2019 | Cornwall, ON

What is the Eastern Ontario Local Food Conference?

The City of Cornwall and the United Counties of Stormont, Dundas and Glengarry, in partnership with the Ontario Ministry of Agriculture, Food and Rural Affairs and many other community stakeholders, will be hosting the 2019 Eastern Ontario Local Food Conference (EOLFC) on November 13 – 14, 2019.

Established in 2011, the EOLFC is the premier regional annual event dedicated to the strengthening and celebrating of our local food system. Drawing farmers, retailers, restaurants, other food businesses, support organizations, government and economic developers, it is dedicated to building strong connections and providing timely, high-quality information to build the sector. The event reliably attracts 200 dedicated local food system actors from a range of sectors and backgrounds, eager to experience the region, learn and make connections.

Conference Elements

Tours

Two fantastic regional tours will kick off the conference on November 13. With so much in Cornwall and SDG to showcase, these half-day, afternoon tours will give visitors a deeper appreciation for what makes local food in this area so exciting. Visiting farms, innovative and award-winning food businesses, and initiatives tackling the toughest problems in local food work, they will have the opportunity to learn while experiencing the taste of the region along the way.

Local Food Reception

Tired and inspired, tour-goers are invited to return to the conference venue and to join sponsors, speakers, and organizers for a local food reception. This reception is another opportunity to show off the food and beverage offerings of this area in a relaxed, celebratory atmosphere. While continuing to sample the region's fare, participants take the opportunity to network, make business connections, and learn about other organizations.

Full Day

On November 14, the full-day conference will open with an inspiring keynote address from Tareq Hadhad, of Peace By Chocolate. Tareq's message of inclusion, as well as his experience both as a refugee to Canada and a food business owner, has been enthusiastically received by many audiences. The remaining conference will offer streams of technical content in both English and French, as well as showcasing of local initiatives that can serve as lessons to the rest of the region.

Trade Show

A lively and interactive trade show will be set up for the full day on November 14, 2019.

Theme

This year's conference theme is Growing Communities Together. In keeping with this theme, the conference is being organized with a strong group of partners that reflects the tradition and diversity of this region.

Please join with us, to make this conference the best it can be!

By supporting this conference you:

- Enable us to continue to attract high quality speakers, ensuring a dynamic program that contributes to the success of our local food sector.
- Help make the conference accessible for our participants.
- Can bring your message to a strong and diverse network of committed professionals, all actively working toward a stronger local food economy.
